AndyLOOS
PLACED FOR YOUR CONVENIENCE

Alvac Vacuum System

The ultimate in luxury facilities

A state of the art design using vacuum operated modules that can be installed inside almost any structure.

This modular system allows an event organiser to create the most luxurious bathroom facilities.

The ALVAC range has individual WC cubicles, triple urinal stations and double vanity units allowing great flexibility for any module configuration to be installed.

The effective use of oak or black and white colour schemes, combined with spot lighting and large mirrors gives a clean, modern dramatic effect.

For VIP events the ALVAC range will complement all themes ensuring that your guests are impressed by the standards of excellence across the entire event.

Main features:

- Modular system allows the organiser to create the most luxurious bathroom facility.
- Can be installed in locations previously considered inaccessible to conventional toilet facilities.
- Clean, modern dramatic effect.
- **Vacuum Toilet for Disabled Access**
Ramp and a handrail is incorporated into any installation.

Alvac Original

Alvac Oak

Individual Oak Vanity Unit

Millennium

Clean modern design

The latest contemporary and minimalist design in luxury trailers is self contained with a recirculating system or mains connection.

The Millennium trailer is a mix of stainless steel and light beech wood finish.

The unit provides three WC's and a vanity unit on the female side and one WC, vanity unit and three urinals on the male side.

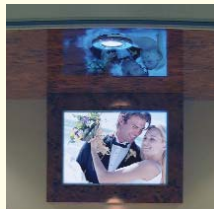

A single phase electrical connection and water supply are all that is required on the site.

Main features:

- Chrome taps.
- Warm water and paper towel dispensers.
- Hand soaps.
- DVD player and screen.
- Attendant service (optional).
- Full length toilet doors..
- Up to 300 people/day.

THE Millennium

Alvac Vacuum System

Poly-Vac

Combining twenty first century technology into our new eco-friendly toilet.

Poly-Vac is our new white eco-friendly portable unit incorporating a vacuum toilet system.

The ideal way forward for any event organiser to improve their temporary facilities on site and minimise service activity.

Main features:

- Chemical free
- No odours
- Minimal water usage
- Low access height
- Internal lighting
- Minimum space required
- Matching unit with disabled access also available

Six-Vac

The Six-Vac is the 2011 replacement for our ever popular Module 2000 unit.

This new unit uses vacuum toilet technology rather than re-circulation or direct connection to the mains.

Main features:

- Low access height
- Six toilet cubicles in one unit including one with baby change facility
- Hand sanitisers
- Vanity mirrors and lighting
- Up to 600 people per day

The Alvac Event

A beautifully designed pod style all weather unit bringing that extra Alvac luxury to your outdoor event.

The EVENT provides a low step access for two self-contained toilet and hand washing facilities within one complete unit.

A single phase electrical connection and water supply are all that is required on the site.

Main features:

- Highly portable pod based system.
- Minimal water usage.
- No chemicals required.
- Integrated warm water hand washing facility.
- Luxury fittings and lighting.

TRIO

Luxury Toilet Trailer

A unique luxury toilet trailer designed for events such as weddings or parties where the daily attendance is around 150 people.

Each of the three toilet cubicles has its own hand wash basin with warm water supply, large mirror and adequate vanity top space for the provision of floral decorations and an overhead pelmet with down lighters, etc.

There are speakers in each cubicle linked to a central CD player for the provision of music if required.

The internal cubicle dimensions are 1300mm wide x 2260mm deep far larger than in any other portable toilet on the market.

A single phase electrical connection and water supply are all that is required on the site.

The unit can be manoeuvred into tight corners far more easily than a larger toilet trailer having separate ladies and gents areas.

Smart aluminium steps with stainless handrails and a white covering skirt (to hide the wheels) complete the setup at your venue.

Main features:

- Re-circulation or mains operation.
- Large cubicle size.
- Cubicles can be designated as all male, female or mixed as required.
- Up to 150 people per day

Abberley

Practical high use design

White 4+2 style trailer featuring maximum internal size. See *specification sheet for layout*.

Also available as 4+4 configuration. (8 x WCs.)

Main features:

- Self contained waste and fresh water tanks
- Warm water hand washing
- Soap and paper towel dispensers
- Vanity mirrors and lighting
- White skirt to cover wheels
- Baby change unit fitted internally
- Up to 600 people per day
- 4+2 can be converted to all male or all female.

Duo

1 + 1 Luxury Toilet Trailer

This trailer is ideal for the smaller function where the daily attendance is up to approximately 100 people.

The unit has a 1+1 layout which means that there is one WC and vanity unit on the Ladies side, and the same on the Gents side. However, as there are no urinal positions in this trailer; it has the added flexibility of being unisex.

There are speakers in either side of the trailer connected to a central CD player for the provision of music if required.

A single phase 16 amp/3.5 kVa electricity connection and water supply is all that is required on site, as well as firm, level ground.

As this trailer is one of our smallest models, it has the advantage of being moved easily into smaller areas when your site space is at a premium.

Main features:

- Simple yet stylish white and chrome fixtures and fittings.
- Centrally located CD player with speakers.
- Warm water.
- Re-circulation or mains operation.
- Up to 100 people/day.

Elmley

2 + 1 Luxury Toilet Trailer

The Elmley trailer is another of our luxury models.

It can cater for up to 150 people per day, and is split Ladies/Gents. It has 2 WCs and 2 vanity units on the Ladies side, and 1 WC, 1 vanity unit, and 2 urinal positions.

There are speakers in either side of the trailer which are connected to a central CD player for the provision of music if required.

A single phase 16 amp/3.5 kVa electricity connection and water supply is all that is required on site, as well as firm, level ground.

Main features:

- Centrally located CD player with speakers.
- Re-circulation or mains operation.
- Simple yet stylish white and chrome fixtures and fittings.
- Warm water.
- Up to 200 people/day.

Duchess

Practical high use design

Standard self-contained trailers are designed for economy and throughput at events with sizeable numbers.

A range of different configurations cater for various event sizes.

A single phase electrical connection is all that is required on the site.

Main features:

- Self contained.
- No water or drainage required.
- Warm water.
- Soap and towel dispensers.
- Vanity mirrors and lighting.
- Up to 600 people/day.

Individual Units

Highly portable, practical units

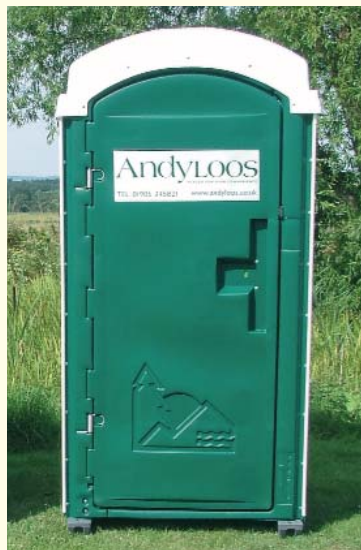

We operate one of the largest fleets of individual toilet units in the UK.

When value for money and portability are the prime concerns, individual units fit the bill.

Highly versatile with flush mechanism and hand sanitisers. We can supply anything from one to over 1000 units at a time. Ideal for any event large or small.

Main features:

- Tough proven design.
- Spacious (Integra model shown).
- Hand washing is by means of an anti-bacterial gel which dries on the hands after application.
- Truly portable, with full on-site service if required.
- Re-circulating flush tank system.

Toilets for Disabled Access

As per the Individual units but bigger – external base dimensions 1.55 x 1.55m allowing enhanced ease of access.

Main features:

- Full-width handrails on two walls.
- Ground level wheelchair access.
- See Special Needs page for more options.

Moovaloo

Twin Toilet/Shower

A twin toilet trailer originally designed for field harvesting, allowing the facilities to follow the pickers progress across the fields. The unit is easily towed by a tractor or most vehicles with a towing hitch.

Toilets are equipped with anti-bacterial gel dispensers and a central cold water hand washing station.

This unit has also found applications with film crews on location and small events where access was difficult.

The same trailer can also be fitted out with a toilet and a shower unit for use on temporary campsites.

Moovaloo
Twin Toilet
with Central
Wash Station

Uro Cabins

Specially for large events

The Uro Cabin is a most cost effective system for large events.

Each cabin can replace up to 25 individual WC units.

With a throughput of 1000 males per hour the unit alleviates the problem of queuing and congestion.

A single phase electrical system is required on the site.

Main features:

- Each URO cabin is fully self contained and does not require any form of drainage.
- A water supply is not required and hand washing is by means of an anti-bacterial gel which dries on the hands after application.
- Translucent roofs or windows give good daylight illumination with lighting for evening use.
- Standard six position floor standing unit also available.

Transshowers

Take a luxury shower anywhere

Quite possibly the most luxurious gas operated mobile shower units available.

The up-to-date technology in these showers allows the units to be situated wherever you need them.

A single phase electrical connection, fresh water supply, grey water drainage and LPG propane gas are all that is required on the site.

Free standing single shower units are also available.

Main features:

- Shower Trailers have four separate cubicles and are individually insulated for warmth.
- Each cubicle has a separate drying/changing area.
- Constant warm water thermostatically set to the ideal temperature.
- All fittings and safety features moulded in for ease of cleaning.
- Shower with disabled access also available.

Individual Shower Unit

Special Needs

A luxury toilet for Disabled Access

The latest contemporary design in luxury disabled units. The unit is fully self-contained or with mains connection available.

The unit is finished throughout in high gloss GRP with light walnut effect trim.

Access is via a gentle ramp with fitted handrail.

An emergency call alarm is fitted.

Main features:

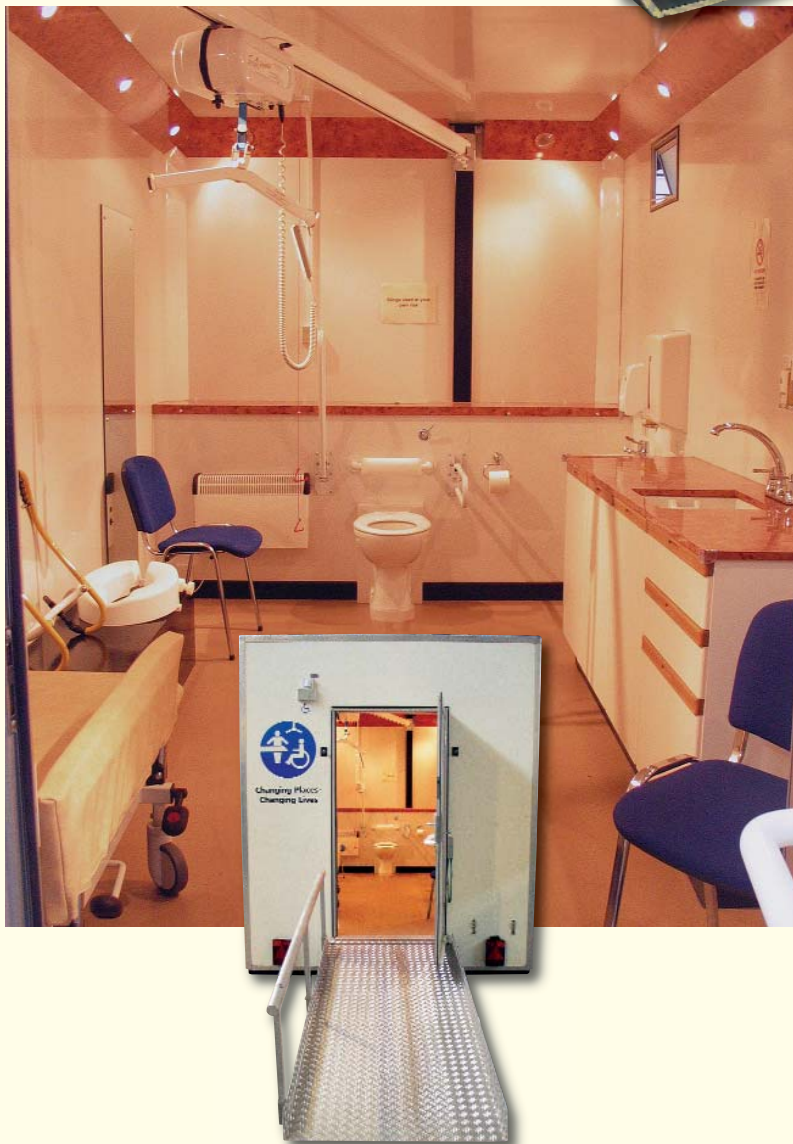

- Chrome non-concussive taps.
- Warm water.
- High quality hand soap.
- Support hand rails for ease of movement.
- Halogen down lighters.

Standard
Easy Access
Shower Unit

High Dependency Mobile Unit

This unit is designed to be both luxurious and easy to use for both carer and the disabled person.

The H.D.U unit incorporates a fully automatic tracking hoist and height adjustable changing couch.

There is more than adequate space in the changing area for the disabled person and up to two carers. A centrally placed toilet with room either side for the carers, and a curtain to allow the disabled person and carer some privacy.

On arrival to your location the unit lowers down on its own hydraulic jacks to a low level allowing for easy ramp access.

The unit is finished throughout in high gloss GRP with light walnut effect trim.

Main features:

- Warm water.
- High quality hand soap.
- Soft hand towels.
- A non slip floor.
- Halogen down lighters.
- CD player.
- Support hand rails for ease of movement.
- Wide tear paper roll to cover couch.
- Large waste bin for disposable pads.
- Emergency call alarm.

Changing places
Changing lives

"Thank you to all the team at AndyLoos for the provision of your ALVAC toilet system at Blenheim in June. When organising such a large event it is reassuring to have such a reliable and professional team whose eye for detail and expertise can be trusted upon to constantly deliver fantastic services and a very stylish end product."

AMY GILLAM
The Admirable Crichton Ltd

"The provision of clean and functioning toilets is an absolutely vital part of the smooth running of our events and we continue to place complete trust in AndyLoos."

ANTONIA BEGGS
PGA European Tour

"I was very impressed with the very clean and well-stocked loos and in particular the odour-free atmosphere which is so lacking in the usual portaloos we find at these type of events. They were fresh from start to finish and I hope to see them at all events."

MARGARET MOLE
Birmingham

"Based in Munich, we found AndyLoos via the Internet and were impressed by the quality of their communication, equipment and level of service for a prestigious motor event in Sicily."

EPS EVENTS
Munich

"I'm just dropping you a quick note to say how pleased I was with every aspect of your services at our recent event. From our initial contact right the way through to delivery I was impressed at every stage. Your attitude, the tidiness and organisation in the warehouse, the quick and helpful responses before the event, the units themselves and the guys onsite were absolutely first class." Thanks again,

CHRIS PERKS
Stagestruck Ltd.

"Hi everyone – just wanted to say thanks so much for looking after everyone so well. We go to 6/7 festivals a year and without doubt the AndyLoos are the best!! Always loo roll, hand cleanser – and always with smiley faces – thanks so much and looking forward to seeing you all next year."
