

Millennium

Luxury self-contained trailer toilet featuring con-temporary minimalist design with a mix of stainless steel and light beech wood finish.

The Millennium provides three WC's on the female side and a twin vanity unit along with one WC, twin vanity unit and three urinals on the male side.

Re-circulating system or mains connection available. Caters for up to 300 people per day.

Duchess

Standard self-contained trailer designed for economy and high throughput at medium to large events, caters for up to 600 people per day.

Various configurations available, e.g. four female WC's, twin vanity units with two male WC's, twin vanity units and three urinals.

Re-circulating system or mains connection available. Warm water supply. No separate water or drainage required.

Transhowers

Quite possibly the most luxurious gas operated mobile shower units available.

The up-to-date technology in these showers allows the units to be situated wherever you need them.

A single phase electrical connection, fresh water supply, grey water drainage and LPG propane gas are all that is required on the site.

Free standing single shower units are also available.

Hire

All units can be hired for anything from a few hours to long term leasing arrangements.

Cleaning & Emptying

Andyloos will empty and clean all hired toilets according to an agreed schedule or on demand. Facilities are also available for the emptying of Cess pits and Septic tanks. Please contact us for a quotation.

Long-hire

With 'long-hire' the minimum contract period is two weeks.

These extended contracts generally include regular servicing, cleaning and restocking with consumables.

Ideal for

- Building and Construction Sites
- Local Authorities
- Farms and Horticultural Nurseries
- Schools with remote playing fields
- Rural Churches
- Riding Centres
- Outdoor Pursuits, Paintballing, etc.
- Nature Reserves
- Rural Car Parks
- Football and Sporting Clubs

AndyLOOS
PLACED FOR YOUR CONVENIENCE

Our company policy is one of continuous development and improvement. We therefore reserve the right to alter the design and construction of any of our units without notice.

Units available for building and construction sites

Standard Unit

Our longest serving toilet – over thirty years in the industry and still going strong!

Equipped with recirculating flushing, tank, hand sanitizer and jumbo toilet roll.

Walls are strong enough to withstand impact, but flexible enough to avoid cracking and splitting.

Easy Access Unit

Flat floor access – polyethylene extrusion floor provides maximum rigidity. Full-width handrail assemblies reinforcing all three walls and all four corners.

Generous proportions provide ample wheel chair turning space, as well as accommodating an additional adult where appropriate.

Also available with baby change station if required.

Hot or Cold Wash Toilet Unit with Forearm Basin

Standard units can be supplied fitted with a matching compact basin as illustrated.

This unit only requires an electrical supply to provide warm water to users. Permanent connection to an incoming water supply is not required.

The reservoir is easily rechargeable with fresh water. Available as 110V or 230V to suit site requirements.

Mains Toilet Unit

Portable toilet unit available as mains WC.

Unit supplied ready for mains connection.

Discharge via 4" pipe, water inlet through 15mm push fit connection.

Instantaneous hot water on demand available if required.

Unit complete with forearm basin and automatic water shut-off after 20 seconds.

Electrical supply required.

Moovaloo Twin Toilet/Shower

A twin toilet trailer originally designed for field harvesting, allowing the facilities to follow the pickers progress across the fields. The unit is easily towed by a tractor or most vehicles with a towing hitch.

Toilets are equipped with anti-bacterial gel dispensers and a central cold water hand washing station.

The same trailer can also be fitted out with a toilet and a shower unit if required.

Hot Shower Unit

LPG gas powered unit dispensing instantaneous hot water, unit includes a separate changing area.

Water supply required, with drainage via a flexible hose to a soak away or mains drainage.

(Gas bottle not supplied)

Mobile Welfare Unit

Self contained mobile Welfare Unit with a separate canteen and toilet area. Canteen facilities include kettle, microwave, sink and seating area with table.
